

Film Manufacturer - SiPix

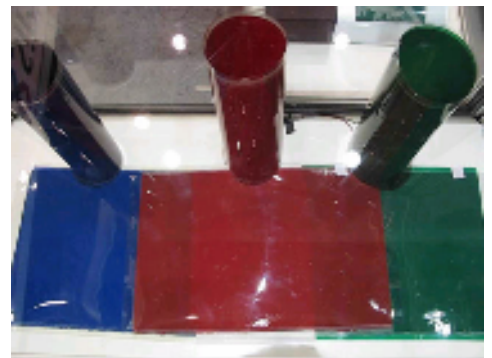

(June 30 2008)

SiPix has had an extremely busy but exciting 2nd Quarter. Most of the major exhibitions happened in this quarter. We've been to *Cards Asia* in Singapore, *HK ICT EXPO* in Hong Kong, *CTST* in Orlando, Florida and *SID Display Week 2008* in Los Angeles, California. Our last stop in the 2nd Quarter was *Display Taiwan 2008* in Taipei, where proudly launched our new Flex-It™ film and also presented some impressive working samples from our partners.

1. Color Samples – The beginning of SiPix's full color project
2. Flexible Segmented display – PET sample from Toppan Forms
3. E-Book from iRex - Uses SiPix's new Flex-it™ film with higher whiteness and faster response time

Rollable PET sample from
Toppan Forms
